

CoVid

PLEASE REMEMBER

CoVid is caused by the SARS-CoV-2 Virus
It has several different “variants”, or strains.

Symptoms usually begin 3-5 days after you are infected with the virus.

Symptoms include:

Fever
Cough
Chills
Fatigue
Trouble Breathing

Headache
Sore Throat
Runny or Stuffy Nose
Problems with taste / smell
Muscle Aches

Most people have mild symptoms that last a few days to a week.

If you become ill with CoVid, stay home, rest, & drink plenty of fluids.

If you begin to have trouble breathing, seek treatment at your nearest emergency department.
