### CHIPPEWA COUNTY COVID-19 VACCINE UPDATE

CHIPPEWA County, Michigan – Since December, 2020, between the Chippewa County Health Department (CCHD) and its partners, over 9,000 Chippewa county residents (or more than 23% of the county population) have received at least one dose of the Covid-19 vaccine. While these numbers are positive, there is still a long way to go before we reach our goal of having 70% of our county fully vaccinated.

The health department continues to vaccinate individuals in Priority 1B, Groups A and B, which includes: critical infrastructure employees, preK-12 teachers, first responders, etc., and the aged 65 and older population. For individuals in those groups, appointments are available at CCHD. Please call 906-635-3572 to schedule. CCHD encourages anyone who is currently eligible to get vaccinated.
