Important Information

Please show up promptly for your appointment.

We will honor your appointment if circumstances prevent you from arriving on time.

Plan for up to 1 hr total which includes a minimum 15 minute observation period after vaccination.

You should not get a COVID-19 vaccine if you:

- Have had a known COVID-19 exposure and are currently quarantined
- Have symptoms of COVID-19, including a cough, fever, shortness of breath, or loss of taste or smell
 - Have a pending COVID-19 test
 - Received any other vaccine in the past 14 days
